## VISITING AALS MEMBERS AND THEIR LOCOMOTIVES

On our December run day we had a visit from WDLS (Fairfield) member David Kirkland and he brought his Wash-plant Bug, It was great to see you David and thank you for your support on the day. Also on our January run day Simon Briggs and Mathew Milroy from SSME ( Luddenham) visited our club and brought with them, Simons 7 1/4 model SSR (Southern Shorthaul Railway) 4910 locomotive. It was great for members of the public to see a different locomotive getting around our track. We hope that Simon and Matt enjoyed their day and we thank them for helping out with our passenger haulage on the day.

We happily encourage any interested AALS members to attend our run days on the first Saturday of every month.
