

## FROM THE EDITOR

Hi folks. This is essentially a quick newsletter to get things rolling again. I aim to get something out in time for the club meeting on the 3rd Saturday of the month.

Many thanks to those who have supplied photos of club events, especially Ken. Sorry Ken, but I couldn't use them all in this issue. But please keep them coming. Photos taken with a mobile phone are OK but those taken with a proper camera are better! I'll adjust the colour and sharpness to suit publication so please, leave photos as they are.

Articles on anything of interest will always be welcome, especially things happening in our club and other clubs close by. If you're building a loco, please send some photos and a progress report. If you've got a new one, photos and details please so we can share your enjoyment.

September, of course, is AGM month and a full report will appear in the next issue together with reports on what the incoming Board has in mind.

Mick reckons we need some cartoons. So those cartoonists among you, please get busy. All contributions welcome. Someone else reckoned we need a crossword puzzle but that might be taking things a bit far, although the occasional rail oriented crossword wouldn't go astray.

Finally, while the newsletter will be available in print, its also available as pdf for those who want it delivered by email. Just let me know your email address and I'll send it on.

That's all for now.

Regards  
Ian Svenson  
Editor.
